

The CDM Foundation

MISSION: ENHANCE THE EDUCATIONAL STANDARDS AND REPUTATION OF CDM MIDDLE AND HIGH SCHOOL

No more pencils, no more books!

It's not your granddaddy's library; in fact, it's not a library at all, it's a Student Learning Center, an open-source development laboratory. The next signature project for the CDM Foundation will be the planning, construction and implementation of the current 1960's-era school library into one for students of the 21st century. This remodel will give a lesser presence to cloth-bound books and more to technology, including computer stations, active-study areas, projectors, drop-down screens and eBooks. Gone will be the view-blocking stacks of books, replaced by a see-through model of waist-high counters and open areas, along with casual seating instead of rigid seats at tables. The new look will speed up the learning process, encourage creative thinking and collaboration, and also introduce our students to current levels of technology. Talking will not just be OK, but encouraged for the exploration of new ideas. Projection equipment will allow students to train in skills that will be used in their careers. Construction is to begin in the summer of 2015 and the project is to be ready for the school year that fall. The CDM Foundation greatly appreciates the generous donations of our families which will make possible this important upgrade; thank you, CDM parents!

BREAKING NEWS UPDATE

Cdm Sports Complex Approved!

On November 18, 2014 the NMUSD School Board of Trustees unanimously approved the authorization to proceed with moving forward on CDM's long awaited Athletic Field renovations! The next steps for the district are the determination of the project design scope and retention of design professionals.

At the same meeting, the Trustees also approved the proposal for professional conceptual design schemes for the CDM Library remodel. The CDM Foundation is funding the remodel which will create a 21st century library with construction to begin during the summer of 2015, with the project ready for student use that fall.

The CDM Foundation Success Story

Dear families of Corona del Mar High School and Middle School,

Front exterior of Performing Arts Complex

Interior of Middle School Enclave

Middle School Enclave Dry Lab

Interior of Performing Arts Theater

A huge Thank You to all the parents who have supported us with over \$11,000,000 these past 19 years! The CDM Foundation has put that money to work in a variety of ways: extra counseling positions, academic support, technology upgrades, gym, quad and room remodels, and field renovations. We exist to bridge the gap between the increasing cost of education and the insufficient funds from the district and the state, so we look to the parents to support this additional and necessary funding. This extra money helps prepare our children for the college admission process and the 21st century job market. We have traditionally been supported by 20% of the parents, and we thank you wholeheartedly. For the other 80% who have not had the opportunity to donate, we welcome your help. No donation is too small. Please read below to see what we are doing for all CDM students, from musicians to robot programmers, and from athletes to the next tech start-up entrepreneur.

Last year the Foundation raised more than \$600,000. This money will be used to fund the following programs:

Academics and Music: (\$95,000). \$62,000 in grants to Math, Science and Music departments, plus funding for a science teaching assistant/lab coordinator and AP Support.

College Programs: (\$45,000). Last year the Foundation and Boosters developed the hugely successful Student Resource Center. We fund our College Programs Coordinator, put out the College Planning Guide as well as fund a position just for testing of our students to take the work load off of our counselors.

Counseling: (\$65,000). We fund an extra guidance counselor to improve the district-provided student-to-counselor ratio of 600 students to 1 counselor to a student-to-counselor ratio of 480 students to 1 counselor.

Technology: (\$220,000). The Foundation has purchased \$105,000 of new computers to provide for a mobile computer lab which goes room-to-room, rather than the past pull-out program which was time-consuming and disruptive. The remaining funds are allocated for our iPad program, implemented in the Middle School, with additional funding set aside to provide support, repair and training.

Athletic Trainer: (\$15,000). The Foundation pays for Craig Truglio, an all-sports athletic trainer, to help ease the burden put on our fabulous sports teams and their coaches.

Capital Improvements: (\$130,000). For 2014-2015, this money is set aside for the remodel of the attendance office, nurse's office, and next summer's remodel of the library. Additional donations coming from this school year will help supplement the library remodel, which is due to be completed by fall, 2015.

Administrative and Maintenance: (\$30,000). The Foundation spends less than 5% of its annual budget on administration expenses which includes mailings, insurance, the annual newsletter, administrative support and an annual power-washing of the quad prior to the start of the school year.

As mentioned above, the next large project for the Foundation is to completely remodel the library this next summer, to bring it into the 21st century with a greater emphasis on technology and collaborating study, and a reduction in outdated cloth-bound books. Think of an interactive, open-source laboratory of ideas, where learning is fun and dynamic.

CDMHS and MS has over 2400 students to prepare for tomorrow's challenges and opportunities. Our graduates attend some of the best colleges and universities in the United States. More importantly, CDM provides an exceptional education for our children from the middle school through high school graduation. While district funding provides the physical facility and faculty funding, they do not provide the supplemental programs referenced above. Your students would not obtain the exceptional education they receive at CDM without the Foundation. In order to produce similar support in 2014-2015, the Foundation's goal is to raise \$850,000. Thank you for considering joining us at cdmfoundation.org, where you may make a donation to help keep our school as one of the top institutions in the country, providing the latest technology, grants to science, math and music, and continuing capital improvements such as the updated library (summer 2015), Student Resource Center (2013) and renovation of the gyms (2013 and 2013). Thank you so much for your support!

Tim Britt

Co-Chairmen CDM Foundation

Jules Marine

Co-Chairmen CDM Foundation

The CdM Foundation has contributed so much to our school. They have helped students excel in many subjects, and their donations have made a big impact at CDM Middle School.

"Using iPads in science has been very beneficial in my class. We use them to make PowerPoints and to look up information. They make organization of information so much easier and a lot more fun!" says Paige Wood, 7th grade President.

"The equipment that our 8th grade science class is able to use is like high school level! Most junior highs aren't able to use such sophisticated

equipment like multimeters, Quizdom remotes, vacuum chambers, and all of the cool chemistry equipment that we have due to the donations from the Foundation," says Lelia Darmer, 8th grade President.

We warmly thank the CDM Foundation for all they have done and for making so many of our subjects like Math, Art, Science, Music and more, even better!

Paige Wood and Lelia Darmer
CDM 7th & 8th Middle School ASB Presidents

Welcome to the Enclave!

Dr. Becky Gogel
CDM Middle School Principal

We are thrilled with our beautiful new learning space at Corona del Mar Middle School. Designed to create a separate learning environment for our 7th and 8th graders, the new Enclave has given middle school students an opportunity to have a unique identity on our busy campus. The Enclave provides 16 separate classrooms, Tech Room, middle school office, staff lounge, student and staff restrooms, lockers and a center quad area for lunch and activities. The various levels of the buildings are assigned to specific subject areas to enhance collaboration. The ground level floor, adjacent to the office and staff lounge, hosts the Mathematics classes. The second floor is host to students studying Language Arts and the top floor is busy with students learning about History and Social Science. Across the walkway on the second floor of our adjacent building is a series of state-of-the-art Science labs, equipped for both wet and dry labs, depending on the requirements of the curriculum. The ground floor of this building also holds our newly designed Tech Room, a flexible spacing for larger activities, technology-enhanced learning such as robotics, and professional development.

Recognized as a green building, the Enclave was LEED (Leadership in Energy and Environmental Design) certified through an intensive process that reviewed seven separate categories: Sustainable Sites, Water Efficiency, Energy and Atmosphere, Materials and Resources, Indoor Environmental Quality, Innovation and Design Process, and Regional Priority. With renewable materials such as bamboo doors, the aesthetic appeal of the Enclave was also considered. The landscaping surrounding our new facility has only "California Friendly" plants which are low in water demand (drought tolerant) and grow well in our costal climate. The majority of our plants are native to Southern California.

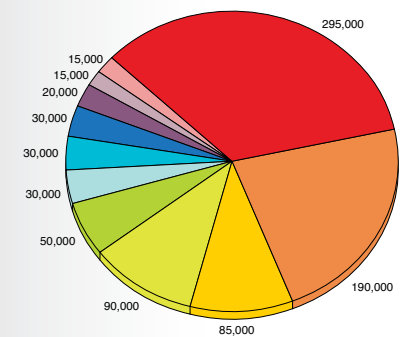

We invite you to come and visit our beautiful, innovative facility...a state-of-the-art complex designed for student success!

Foundation 2014-2015 Budget-- \$850,000

Library remodel	\$295,000
Technology	190,000
Counseling	85,000
Health, Attendance offices	90,000
College programs	50,000
Math Dept.	30,000
Science dept.	30,000
Music Dept.	30,000
Principal's discretion	20,000
All-Sports Athletic Trainer	15,000
Administrative	15,000
Total 2014-2015 budget	\$850,000

As the principals of CDM high school and middle school, we are very excited about the work we will be doing this school year in partnership with the CDM Foundation. Our goal is to provide CDM students with an exceptional educational experience that will make them competitive in the college application process and successful in any post-secondary experience they pursue.

Here are some of the key areas that will be our priority this coming year:

- ☆ Continue to enhance classroom instruction by utilizing technology as a catalyst for deeper and more relevant learning experiences for our students. With Foundations' support we will be able to provide mobile carts of laptops and iPads as we transition to BYOD (bring your own device), the school district's ultimate goal.
- ☆ Fully define our CDM Zone Signature Academies. The signature academies are a K-12 district initiative. We will be working with the principals at all five of our feeder elementary schools, along with CDM staff and students, to create curricular pathways and define the criteria for participation in the International Academy and the Performing Arts and Multimedia Academy known as PAMA.
- ☆ Further develop highly effective instructional strategies and Common Core curriculum that is aligned 7th -12th grade during our Monday professional development time. The quality of every student's learning experience should be based on a consistently implemented departmental standard, not on an individual teacher.
- ☆ Maintain a focus on preparing our students for college by providing a variety of AP courses to give our students more options; offering the district funded PSAT for all 10th graders and the ReadiStep for all 8th graders; exposing our students to colleges and universities from across the nation and world through the SRC; and providing college application workshops for both students and parents throughout the school year.

To make our goals a reality we will be working closely with Foundation and other parent groups. We value our collaboration with our parent community, and together our efforts and investments will take CDM to the highest level of academic excellence.

CdM Foundation Dinner/Dance

"Cabo Wabo" Dinner/Dance Silent Auction fundraiser

Friday, April 17, 2015 | Island Hotel, Newport Beach

Mark your calendar now and plan to join the CDM Foundation for their ninth Dinner/Dance Silent Auction fundraiser, "Cabo Wabo," Friday, April 17 at the Island Hotel, Newport Beach. This is an event you won't want to miss. We will have fabulous silent and live auction items for you to bid on as well as a delicious dinner and a delightful cocktail hour. Tickets will be priced at \$150. For information on underwriting opportunities, please contact Robin Hook at robinhook@cox.net If you would like to help with the auction or have an item to donate, please contact Andrea Fine at afinemom@me.com To advertise in our event program, please contact Nina Elisius at nelisius@gmail.com We look forward to celebrating with you on April 17.

Andrea Fine and Robin Hook

Donate NOW! CDM Foundation QR code

A quick lesson in QR codes

- Step One:** Go to the app store on your smart phone.
- Step Two:** Search for "QR" or "Scanner" and download the highest-rated, or cheapest, app.
- Step Three:** Open that app and follow the instructions to scan. Aim your camera at the bar code to the left.
- Step Four:** This should take you directly to the page or a link to it. If the link, click the link. If for any reason you can't figure it out, ask your kids.

Seen Any Robots Lately? You may, soon!

Indeed! Robots may soon be appearing on the CDMHS campus, as the Foundation, along with Boosters and PTA, have funded Mr. Selby's Physics classes for the C-STEM program. Computing-Science, Technology, Engineering and Mathematics; that's what it stands for, and it's a UC approved educational preparation program, coming to all UC campuses in the fall of 2015, where students use computers to program robots. The high school course is recognized in the UC admissions process. Providing rigorous academic content, exposure to new technology, student engagement and enthusiasm, Mr. Selby's classes have been and will be programming robots for competitions. They had three teams (two HS, one MS) at the C-STEM Roboplay Competition last spring, where the MS got 1st place and the HS teams were 3rd and 5th in the state.

Projects in the Pipeline

- Currently:** Remodeling attendance office (relocated to main admin bldg.)
- Next:** Remodel Nurse's office (old attendance office)
- Ongoing:** Landscaping to fill in where district left off
Purchase of computers/carts for mobile computer lab
Purchase of lunch tables for HS and MS to replace broken ones
- Summer 2015:** Library remodel
- 2015-2016:** Gym foyer/restroom remodel and enlargement
- Future:** New entrance/gateway to school by pool

CDM High School

NATIONAL RANKING

**US News and World Report
Best High Schools
Ranking**

**Gold Medal State Rank: 37
National Rank: 222**

Rankings are determined by a multi-step process. The first step eliminates schools that perform below state average on state high school proficiency tests. The second step eliminates schools whose significant minority subgroups (including economically disadvantaged) perform below state averages on state proficiency tests. The final ranking is determined by creating an index based on either AP or IB (whichever program has higher participation) tests. Seventy-five percent of the score is determined by test pass rate, and 25% is graduate participation rate.

Technology Update

Over the past year, the CdM Foundation has funded approximately \$216,000 towards technology initiatives to help CdM Middle and High School keep up with the rapidly changing ways that technology can improve education. Schools across the country are struggling to keep current with modern technologies. Providing students (and teachers) with the tools they are used to using daily allows them to be more efficient while at school, and prepares them for post-high school where using technology becomes part of learning and working.

Through the support of the Foundation, several initiatives have been started in the past year and will continue to grow as Foundation support continues:

iPads for Instructors: An initial set of 30 iPad Airs were purchased and distributed to teachers that attended training sessions funded by the Foundation and additional training by the District. These iPads, used in conjunction with streaming software and the overhead LCD Projectors, allow teachers to broadcast lessons, videos, images and instructional materials found on the internet to their entire classroom. This technology is replacing the antiquated overhead projectors, which limit projection of items placed under the camera. These tools allow instructors to bring the full interactive richness of the internet into the classroom lecture.

LCD Projectors: As in previous years, the Foundation has funded the replacement of aging LCD projectors which allow teachers to project study and example materials onto a big screen for the entire class. Fourteen projectors were purchased and installed into the new Middle School enclave this past year.

Roaming Computer Labs: In the past, when a class needed to use a computer for research or other class assignment, the instructor would have to reserve the "computer lab" and bring the entire class to the lab (and back to class again). This causes disruption and loss of valuable instruction time. By funding the purchase of 120 laptop computers contained within 6 roving carts, the computer lab can now be brought to the classroom! And, the computer lab class can be repurposed for additional class space.

Tablets: This past year saw the introduction of tablets into 5 classrooms (Science and Math). These class sets of iPads allowed each student to utilize the device to do research and create projects while in the classroom setting. It also allowed students to demonstrate their work to the entire class using the overhead LCD projectors. This initial program has laid a foundation further integration with personal computing devices in the hands of students to allow them to maximize their educational experience.

And You Thought We Were Just Great Students!

All five of CDM's outstanding fall sports teams made it deep into the playoffs.

First, sophomore Alyaa Abdulghany won the Girls' CIF Golf Championship with a one under par 69 at Western Hills Country Club; way to shoot, Alyaa! In Boys' Cross Country, Parker Nostrand qualified for the CIF Finals at Mt. San Antonio College, while the five-time State Champ girls' cross country team placed in CIF and is heading back to State! Track Coach Sumner is a perennial #1, himself.

In Water Polo, our 14-time CIF Champ boys team, the highest rated and farthest-advanced public school in the draw, made it to the CIF Semis against #1 seed Harvard-Westlake. The Sea Kings' run ended there, but you boys represent the most decorated of all our teams, and you made us proud.

Two-time National Champ and four-time State Champ Girls Volleyball lost to Mater Dei in the CIF Semifinals. Great run, girls

Girls Tennis, a former National Champion and 8-time CIF Champion, lost to #1 Peninsula in the semis, but continued its run in the CIF Regional, with a Semifinal loss against Peninsula again. Individually, #1 doubles team Siena Sharf and Riley Gerdau qualified for CIF finals. Keep up the great work, girls.

In Football, our current State Champion and three-time CIF champion varsity made it to the quarterfinals, losing to Trabuco Hills Coach Meyer, thank you for a great run!

The CDM Foundation has hired Craig Truglio as our certified All-Sports Athletic Trainer. Craig will be in charge of injury evaluation, treatment and rehabilitation, as well as crafting our school's concussion policy. Last year, Craig implemented ImPACT Baseline Concussion testing, and has plans with AD Don Grable to make our program attain the most recent research-based guidelines for concussion prevention. Welcome to the CDM family, Craig.

CDM Sports-Track Complex: The School Board voted last week to move ahead with our track sports complex. The district has \$7,400,000 in funds to improve our facility, which will be detailed further in a December meeting, and most likely completed in 2016.

NATIONAL CHAMPIONS (by year)

Girls VB '92,'93
Boy's VB '11
Girls tennis '97
Girls Cross Country '05

STATE CHAMPIONS (by number)

Girls C.C. 7

Girls WP 5
Football 5
Boys swim 4
Girls track 4
Baseball 3
Boys golf 3
Coed badminton 2
Girls swim 2
Wrestling 1
Girls Basketball 1

Trident TV

The inception of Trident TV, a new addition to the Journalism program, occurred last year with a few simple videos produced for the online site Trident Online. Today, Trident TV boasts a staff of five students, professional lighting and sound equipment, a Tricaster Television System (courtesy of the CdM PTA), and a production schedule for a daily show.

The broadcast program, now an integral part of Trident, constantly collaborates with the magazine staff on a variety of different projects. Trident TV worked closely with school district on the State of the District. The students in the program work tirelessly with ASB and the administration to keep the school informed on sports, special events, college visits, and schedule changes. Trident TV covers everything from features about individual students to annual district meetings to school rallies.

During this past summer, the students involved in the program received training from television production professor Kyle Williams and professionals Michele and Dan Caston. The program offers a chance for student participants to gain in-depth knowledge of studio direction, camerawork, technical skills, and on camera performances. Trident TV will continue to grow as a program and contribute to the journalistic excellence at CdM.

DONOR PLEDGE FORM

Thank you so much for supporting the CDM Foundation! Our community believes in the importance of strong and vital schools. The Foundation provides funds that bridge the gap between the increasing cost of education and the insufficient funds from state and local government. The foundation annually raises and allocates funds for supplemental staff, technology, infrastructure improvements, college preparatory advisement, and academic counseling services. The Foundation strives to promote the educational advancement and success of our students, helping to best prepare them for tomorrow's challenges and opportunities and to enable them to excel far beyond expectations. Please visit our website for more details on what the CDM Foundation has supported the past several years: cdmfoundation.org.

Annual Fundraising Goal: \$850,000

We are asking you to consider making a \$750 per child per year donation and a multiyear pledge.

If that is not possible, however, the CDM Foundation would greatly appreciate any amount you would be comfortable gifting to support and supplement our children's educational experience and learning environment.

LEVEL	ADMIRAL	VICE ADMIRAL	REAR ADMIRAL	CAPTAIN	COMMANDER	ENSIGN	MIDSHIPMEN
TOTAL PLEDGE	\$100,000+	\$50,000-99,999	\$25,000-49,999	\$10,000-24,999	\$5,000-9,999	\$1,500-4,999	\$300 - 1,499

- All donors that contribute this year will be recognized on the Annual Donor Banner Displayed outside the gym.
- If you donate or pledge a multi-year total of at least \$10,000, you will be recognized on the permanent LIFETIME DONOR BOARD displayed on the wall outside the gym.
- **TAX-ID # 33-0668812.** A receipt will be mailed to you for your tax deduction.

*****DOES YOUR COMPANY HAVE A MATCHING GIFTS PROGRAM?***** YES NO

If you are unsure if your company provides this benefit, please review the list of companies that have published their Matching Gift Programs, available on our website <http://www.cdmfoundation.org> If your company is not listed, please also check with your company benefits administrator as many smaller companies may also provide this charitable benefit.

(IF **YES**, PLEASE INCLUDE YOUR COMPANY'S MATCHING GIFTS DONATION FORM, COMPLETED WITH ALL THE REQUIRED INFORMATION, ALONG WITH THIS PLEDGE/DONOR FORM AND PAYMENT, SO THAT THE CDM FOUNDATION CAN BENEFIT FROM YOUR COMPANY'S GENEROSITY). Also, your company matching gift will be accounted for as part of your total donation!
